## 150 FRAME R-SERIES PLUNGER PUMPS

**Duplex Stainless Steel Models: 152R060, 152R080, 152R100**

**Flushed Models: 152R060C, 152R080C, 152R100C**

### FEATURES

- Triplex design delivers high-efficiency and low-pulsation.
- Durable dual V-packings are lubricated and cooled by pumped liquid.
- Pre-Set low-pressure seals provide secondary protection against external leaks and require no packing adjustment.
- Special high-density, polished, concentric plungers provide a true wear surface and extended seal life.
- Specially formulated seals and V-packings offer unmatched performance and extended seal life.
- Ceramic plungers, seals and V-packings are serviceable from the top of the crankcase permitting easy in-field servicing.

#### ⚠ CAUTIONS AND WARNINGS

All high-pressure systems require a primary pressure regulating device (i.e. regulator, unloader) and a secondary pressure relief device (i.e. pop-off valve, relief valve). Failure to install such relief devices could result in personal injury or damage to pump or property. Cat Pumps does not assume any liability or responsibility for the operation of a customer's high-pressure system.

Read all CAUTIONS and WARNINGS before commencing service or operation of any high-pressure system. The CAUTIONS and WARNINGS are included in each Service Manual and with each Accessory Data sheet. CAUTIONS and WARNINGS can also be viewed online at [www.catpumps.com/dynamic-literature/cautions-and-warnings](http://www.catpumps.com/dynamic-literature/cautions-and-warnings) or can be requested directly from Cat Pumps.
