

## PRESS RELEASE

### World Leader In Car Wash Products

CAT PUMPS announces a new 4 color, 4 page Car Wash Products Brochure. This brochure highlights the role CAT PUMPS has played in the initial development of the car wash market and its position today, over 30 years later.

It also reviews the many different models CAT PUMPS has available for the self service and touch free car wash systems and the various types of drive options including belt drive, direct drive, flexible coupling and clutch drive.

A handy selection chart showing the standard system accessories used with each pump model makes it easy to choose the correct combination for self service, detail cleaning or touch free system.

For more information on our car wash brochure or our complete line of pumps contact:  
Darla Jean Thompson, Director of Marketing, CAT PUMPS, 1681 94th Lane N.E., Minneapolis, MN 55449
