

The Naked Truth

What makes CAT PUMPS
different from other pumps?

*Quality sets
us apart.*

Underneath the stylish blue, is a precision functioning machine; manufactured under strict tolerances and built with quality, high-strength metals. CAT PUMPS is the only pump manufacturer to offer concentric polished, solid ceramic plungers coupled with an exclusive seal design and material blend that lasts 3-4 times longer than most.

Quality is what makes us last longer and require less maintenance. Time-tested and field-proven, the naked truth is that CAT PUMPS offer the best value for your dollar.
