

MODEL 76239 THERMOSTAT

302° F | 4,000 PSI

Thermostats Are an Essential Addition for Water Temperature Regulation

Adding the option of hot water to carpet cleaning and pressure washing systems can aid in the efficiency and effectiveness of many applications. When combined with a burner system, a Cat Pumps thermostat allows users the ability to reliably heat, adjust and maintain the temperature of a high-pressure water system. Since it can be mounted easily to a panel, this thermostat is well suited for truck-mounted or portable pumping equipment.

For the ultimate water temperature control, get Cat Pumps.

Features

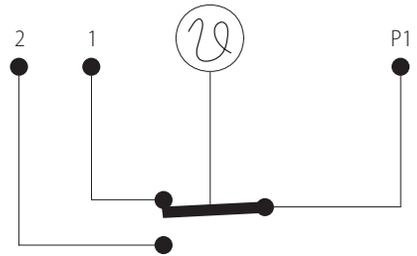

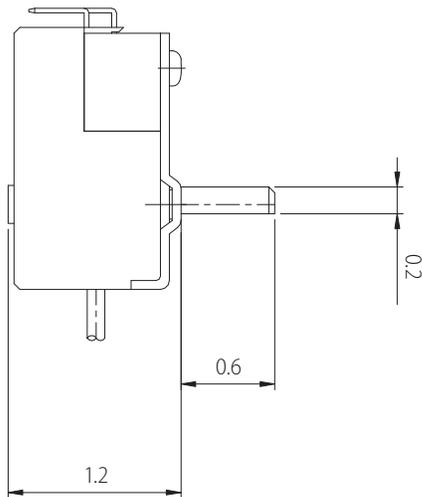

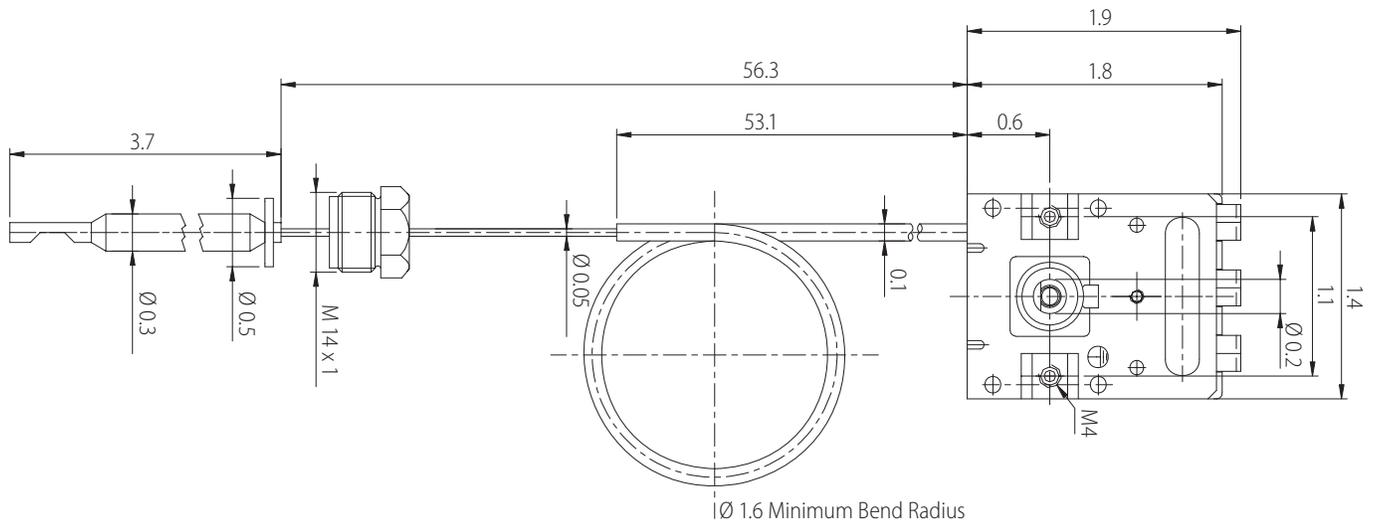

- Temperatures up to 302° F
- Maximum 4000 psi operating pressure
- Easy installation
- Adjustable $\pm 5^\circ$ F
- Copper bulb sensing element
- UL/CSA approved

Applications

- Truck-mounted carpet cleaning equipment
- High-temperature cleaning equipment
- Hot water pressure washers

Specifications

Temperature Range	86° F–302° F
Maximum Operating Pressure	4000 PSI
Electrical Rating	120–240 VAC, 20 A, ¼ HP
Accuracy Range	± 5° F
Adapter Sizes	½" NPT(M)
	½" BSPP(M)

P1-1 opens when temperature reaches set point
