

# MAG-JET VALVE

2.4–12.3 GPM | 1,200–4,000 PSI

## Mag-Jet Valves Make Pump Conversion Easy

Converting a standard high-pressure pump to a jetting pump is easy to do using a Mag-Jet valve from Cat Pumps. Once modified, pumps can supply the high-pressure, pulsating water often required for sewer and jetting applications. By eliminating the traditional dry pumping chamber, the Mag-Jet valve can prolong the life of the pump seals, reducing maintenance and downtime.

Cat Pumps offers a complete line of Mag-Jet valves to cover a variety of plunger pump models. See the back page for a complete listing. Trust Cat Pumps to build durable products to keep your equipment running longer.

When it needs to run, choose Cat Pumps.

### Features

- Lightweight, compact design
- Easy installation to inlet valve plug
- Stainless steel internal components
- Convenient handle permits easy conversion from cleaning to jetting

### Applications

- Sewer cleaning
- Drain cleaning
- Tank cleaning
- Pipe cleaning
- Debris removal

## Specifications

PUMP MODELS	MAG-JET ASSEMBLY
3CP1110CS	31804
3CP1120, 3CP1120G	31804
3CP1130	31804
3CP1140	31804
56, 56G1, 56G118	31810
56HS, 56HSG1, 56HSG118	31810
57	31810

## Drive Type and Performance

### Hydraulic-Driven

2.4 to 12.3 gpm • Up to 4000 psi

### Clutch or Belt-Driven

2.4 to 12.3 gpm • Up to 4000 psi

### Direct-Driven

2.4 to 12.3 gpm • Up to 4000 psi

### Gearbox-Driven

3.5 to 12.0 gpm • Up to 4000 psi
