

# PRESSURE WASHER PRODUCTS – NEW 2021

## Pressure Washing Pump Reliability You Expect from Cat Pumps

One of the most critical components in a pressure wash system is the pump. The pump transfers energy from the engine/motor to move water and wash solutions under pressure to the nozzle. Because the pump needs to withstand system pressures and works with a variety of fluids, it has a tough job to do. Specifying the best pump for the application is vital to long trouble-free service. That's where Cat Pumps® comes into play.

An extensive product line from Cat Pumps provides a solution for every pressure washing application — portable or stationary:

- Direct-drive pumps for gas and electric systems provide an economical solution with a compact footprint.
- Bell housing and flexible coupling motor-pump units provide a durable direct-drive alternative for electric or hydraulic motors.
- Belt-drive pumps offer flexibility in meeting your performance requirement.
- Gearbox pumps mount directly to gas engines for heavy-duty portable washing applications.
- Custom power units for large industrial pressure cleaning.
- Accessories to match each pump or custom pressure washing system performance.

## Cat Pumps Offers Lowest Cost of Ownership

When quality counts, Cat Pumps is the #1 choice for pressure washer pumps. Cheaper pumps can be found, but saving a few dollars up front can be costly in the long run. Downtime is expensive, and preventing just one hour of unexpected interruption can make up the difference. Get work done — with far fewer hassles — by specifying Cat Pumps.

Cat Pumps customers enjoy the following benefits:

- Higher productivity and less downtime
- Fewer repairs and much lower maintenance costs
- Greater confidence in equipment performance

# New Cat Pumps Pressure Washer Products for 2021

## SPECIFICATIONS

## TYPICAL APPLICATIONS

### 66DX50G11

Maximum Flow:	5.0 gpm / 18.9 lpm
Maximum Pressure:	3500 psi / 241 bar
Maximum RPM:	3250
Inlet Ports (2):	½" NPT(F)
Discharge Ports (2):	¾" NPT(F)
Shaft:	1" Hollow

- High-Pressure Washing
- Surface Cleaning
- Water Jetting

### 56HS

Maximum Flow:	8.0 gpm / 30.2 lpm
Maximum Pressure:	3000 psi / 207 bar
Maximum RPM:	1760
Inlet Ports (2):	½" NPT(F)
Discharge Ports (2):	¾" NPT(F)
Shaft:	24 mm

- Hydro Excavating
- High-Pressure Washing
- Water Jetting

### 5CP3150CSS

Maximum Flow:	5.2 gpm / 19.7 lpm
Maximum Pressure:	3000 psi / 207 bar
Maximum RPM:	1750
Inlet Ports (2):	½" NPT(F)
Discharge Ports (2):	¾" NPT(F)
Shaft:	20 mm

- High-Pressure Washing
- Surface Cleaning
- Water Jetting

### 5SP30ELU

Maximum Flow:	3.0 gpm / 11.4 lpm
Maximum Pressure:	3000 psi / 207 bar

### 5SP35ELU

Maximum Flow:	3.5 gpm / 13.3 lpm
Maximum Pressure:	2500 psi / 172 bar

### 5SP40ELU

Maximum Flow:	4.0 gpm / 15.2 lpm
Maximum Pressure:	2000 psi / 138 bar

- Pressure Washing
- Misting/Fogging
- Odor Control

### Common Specifications

Maximum RPM:	1750
Inlet Port:	½" NPT(F)
Accessory Ports (3):	¼" NPT(F)
Discharge Port:	¾" NPT(M)
Mounting:	184TC Direct Drive (1 ½" Shaft)

## 1" GEARBOX – EXPANDED PERFORMANCES

PUMP MODEL	FLOW		ENGINE RPM
	GPM	PSI	
5CP3160CSSG1	4.0	3500	3320
5CP3120CSSG1	4.5	3500	3353
700G1	4.5	5000	3465
5CP3150CSSG1	5.0	3000	3450
5CP5135CSSG1	5.8	3500	3450
5CP5140CSSG1	6.2	3000	3450
5CP6120CSSG1	7.2	1500	3450
5CP6180CSSG1	8.0	1500	3450
56HSG1	8.0	3000	3600
7CP6110CSG1	10.0	2000	3400
7CP6160CSG1	10.0	2500	3400

Note: All 1" gearboxes are also available in 1 ½" size (G118)
