Maximize Uptime with Cat Pumps

Cat Pumps products are accepted as an industry standard for high-pressure applications. Our dependable performance keeps equipment running to meet production requirements and tight schedules. Given its durability, the 2560 and 2565 can be used in a variety of mobile and industrial applications, such as hydroexcavating, jetting, hydroblasting, central cleaning, equipment washdown, among others.

Features:

- Crankcase crosshead area is concentric with 360° plunger rod support and features drilled-through oil port to lubricate front side of crosshead area, resulting in long, reliable drive-end performance.
- Two-coat electrostatic applied primer + epoxy paint finish provides a more durable finish than anodizing for better appearance and durability in outdoor environments.
- Flexible drive options:
 - Belt drive to engine or motor
 - Direct drive to hydraulic motor

Typical Applications:

- Hydroexcavating
- Water Jetting
- Surface Preparation
- Central Cleaning Systems
- Equipment Washdown
- High-Flow/Pressure Flushing
- Multi-Gun Systems
